WELCOME

Dear customer, thank you for joining Preservearts®, together we guarantee your artworks and we safeguard the originality for you, your heirs and your collectors.

Only the artist who produced the artwork can request the Preservearts® secure kit and attach it to the artwork as a guarantee.

Only the artist and his designated heirs can access his reserved area.

In a few simple steps you will be explained how to use the product correctly.

For each artwork of art registered with PreserveArts®, a SECURE KIT is issued which includes an ARTCHIP® and the related certificate with the CERTCHIP® applied.

Every single ARTCHIP® and CERTCHIP® has incorporated nanotechnology an electronic DNA (E-DNA), among the highest patented security systems in the world.

When you register the artwork in your personal area, it automatically comes once the authentication for the artwork has been issued, PreserveArts® matches the artwork with its own ARTCHIP® and the related CERTCHIP®, from that moment the artwork is registered in the personal area of the artist.

Through the PreserveArts® APP, an encrypted exchange process is started, which reads the ARTCHIP® first and then the CERTCHIP® comparing the exact correspondence.

Once originality has been confirmed, you are in the presence of the deposited original, a value guaranteed over time.

Only the artist who produced the artworks can request the secure kit from Preservearts®.

SECURE KIT

You will receive the Preservearts® Secure Kit of the registered artwork at the address you indicated during registration. Once received, open the envelope and check the contents as follows:

- 1 - Folder for authentication
- 2 - Certified with integrated CERTCHIP®
- 3 - Cardboard with ARTCHIP® to be applied to the artwork registered on the site
- 4 - ARTIST instruction
- 5 - COLLECTOR Instruction
- 6 - Envelope for the collector
- 7 - Preservearts® business card

HOW TO COMPLETE THE SECURE KIT

Take the certificate, make sure that it corresponds to the artwork to be associated and that all the data entered is correct. Sign your signature on the authentication.

Personalize the back of the authentication, writing a dedication, a particular description of the artwork or by applying a stamp or sealing wax, being careful not to invade the area dedicated to CERTCHIP®.

1 Apply your signature here

2 Personalize the certificate with a dedication, a description, put a stamp or sealing wax

IMPORTANT:

Once completed, scan or photograph the authentication on both the front and back, and send an email with the scans or photographs attached to: mykit@preservearts.com

HOW TO APPLY ARTCHIP®

3 Gently remove the ARTCHIP® and apply it behind the artwork

Take the card indicated above, gently remove ARTCHIP® and apply it on the back of the artwork, on a clean and smooth part, which can guarantee full adhesion.

Make sure it adheres well to the support. The adhesive anchors perfectly in 24 hours.

The adhesive is designed to adhere to most surfaces.

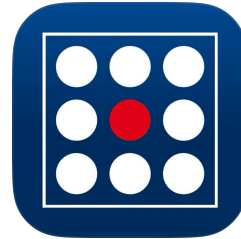

If you try to remove the ARTCHIP® it will be irreparably damaged and must be replaced.

If after 24 hours you encounter an adhesion problem on the support, contact us indicating the type of material on which the ARTCHIP® must be applied, we will provide to replacement with a specific product for the support indicated by you.
